

Gérard Jones has been involved in several enterprising & guest speaking opportunities and is growing as one of our most enterprising and inspirational speakers having been involved in events at Wakefield College, Step-UP Calderdale, Global Entrepreneurship Week 2009 and most recently the Take Control Today event at CIPs Newham College Women's Business Centre to name but a few.

I'm so glad Gérard is doing well as both a young entrepreneur and ambassador. He's had so much good news and it's not even a month into 2010.

He's really enjoying speaking for us and I have had some great feedback about Gérard from event organisers so thanks so much for taking the time to do this for us Gérard – it's greatly appreciated! "
