

Gérard was involved in Global Entrepreneurship Week 2009 in Hull which was a part of a world-wide weeklong event, that saw the 'Make Your Mark Challenge 2009' rising in participation numbers from 56,000 students to an astonishing 72,500!

Gérard's support and enthusiasm has really made a difference to the experience of the students he worked with on the day and I have received fantastic feedback from teachers and tutors who have said how much value he added to the day along with the great amounts of appreciation to him for giving up his time.
